PARK LANE.

SPRING UPDATE: VOLUME 2

We hope you have had a lovely Easter and are enjoying the warm weather that has arrived for Spring.

We are excited to share the latest offers on a wide selection of excellent models from both our New and Approved Used range, as well as some of the latest information on the newest model; the BMW Vision Neue Klasse.

Lastly we have an exciting opportunity with Park Lane Rewards to be entered into our prize giveaway for a pair of PGA tickets... all you have to do is let us know your thoughts!

BMW VISION NEUE KLASSE X.

The BMW Vision Neue Klasse X illustrates a future of X models that stand for an active lifestyle, efficient dynamics and a confident stance. Built with a new type of drive and chassis control and the sixth generation of BMW eDrive technology, the Neue Klasse overall vehicle efficiency reaches new heights, and allows for a superior driving experience tailored to individual needs.

With improved e-drive units, new and now round lithium-ion battery cells, special brake system for fully-electric vehicles and more, the overall vehicle efficiency has been increased by up to 25%. Charging speed has also been increased by up to 30%, meaning you can now charge enough for a 300km range in just 10 minutes!

To help reduce CO2 footprint, the new model has opted for a resource-efficient production and supply chain, by utilising a completely plant-based, mineral-based and petroleum-free surface material "Verdana" in the vehicles interior, as well as Maritime plastics which is obtained from discarded fishing nets for example.

The choice of materials and construction method enable easier disassembly of components and improved recyclability. In this, the new design concept follows the principle of the BMW i Vision Circular presented in 2021, which relied extensively on mono-materials to optimise recyclability.
