

PARK LANE.

SPRING UPDATE: VOLUME 3

This month we announce the exciting news of the latest model to our M range - the New BMW M4 CS. We also have some competitive offers on a selection of excellent models in our range to upgrade to this Spring. Finally, we have a new Rewards partner for you to enjoy. Keep scrolling to find out more.

THE NEW BMW M4 CS.

The BMW M4 CS is our all new high-performance coupe, derived from the BMW M4 CSL and BMW M3 CS. Embracing its motorsport genes, the new M4 CS, combines power with luxury and comfort.

Bridging the gap between the racetrack experience and soul-stirring road performance, the new BMW M4 CS celebrates racing passion with lightweight design elements for every day driving comfort.

Boasting a powerful six-cylinder in-line engine and model specific chassis tuning, the new M4 CS delivers an impressive engine output of 550hp and an acceleration of 0 to 62 mph in just 3.4 seconds.

Its design emphasizes aerodynamics and sporting excellence, with sleek lines and bold styling cues that enhance both its appearance and performance. Broadening your choice for individuality and personal flair, the M4 CS offers two new BMW Individual paint finishes in Riviera Blue solid and Frozen Isle of Man Green metallic, whilst remaining true to its distinctive M character with classic design elements such as exposed carbon fibre for the roof, bonnet indents, front splitter, front air intakes, M exterior mirror caps, rear spoiler and more.

Inside, the M4 CS focuses solely on delivering an exhilarating driving experience, by combining its distinct racing aura with comfort features for everyday driving, and utilising premium materials, advanced

technology features and drive focused amenities for the ultimate driving pleasure.

Starting for £117,100, the production of the BMW M4 CS will start this July, with first customer deliveries commencing in Autumn.
