INTRODUCTION

This note provides a summary of responses to the PFEW Pay and Morale Survey received from respondents from Wiltshire Police in 2018.

Where appropriate, details of average responses for the police service as a whole are also presented, as well as a ranking of Wiltshire Police compared to other forces.

Where rankings are provided, a ranking of 1 represents the force with the highest percentage of respondents expressing a particular attitude or intention, and a ranking of 43 represents the force with the lowest percentage of respondents expressing a particular attitude or intention¹.

RESPONSE RATE AND RESPONDENTS

336 responses were received from Wiltshire Police, representing a response rate of around 35% (based on July 2017 Home Office figures of officer headcount). The national response rate for the 2018 survey was 22%. Last year's response rate for Wiltshire Police was 43%. Please bear this in mind when making comparisons with last year's findings.

The margin of error for this report has been calculated using the number of responses received from officers in Wiltshire Police compared to the number of officers in the force as a whole. The findings presented in this report have a margin of error of 4%².

Overall 790 respondents to the survey declined to state which force they belonged to. The responses from these officers have been included within the national data but are excluded from force-level analysis.

63.8% of responses from Wiltshire Police were received from male officers and 36.2% of responses were from female officers. 72.0% of respondents were Constables, 18.7% were Sergeants, 9.0% were Inspectors and 0.3% were Chief Inspectors.

¹ Rankings have been determined at one decimal place.

² A margin of error of 5% or less is generally considered to be within the normal bounds of academic rigor. If this threshold has not been met, the results from this report must be interpreted more cautiously.
