Orders from 6 April 2022 to 5 July 2022. *The fuel consumption, CO₂ emissions and range figures mentioned comply with the WLTP test procedure, on the basis of which new vehicles are type approved from 1 September 2018. This WLTP procedure replaces the European drive cycle (NEDC), which was the test procedure used previously. Due to more realistic test conditions, the fuel consumption and CO₂ emissions measured under the WLTP are, in many cases, higher compared to those measured under the NEDC. The fuel consumption, CO₂ emissions and range figures may vary depending on actual conditions of use and on different factors such as: charging frequency, driving style, speed, specific equipment, options, class of tyres, outside temperature and thermal comfort on board the vehicle.
